Category:Windows-only software Category:Autocad softwareQ: PHP class not recognized I have this problem where I am unable to access a class. I have this code: `require_once("core/core.class.php"); $core = new core(); echo $core->getMessage();` This throws this error: Fatal error: Class 'core' not found in /home/vagrant/mysite.com/classes/core.class.php on line 1 However, when I open core.class.php in my filesystem, I see that it is there. What's the issue? A: Add the following line to your core.class.php file: Kyrsten Sinema sent a very bold letter to the Federal Election Commission, demanding it investigate the National Rifle Association's apparent campaign contributions to her opponent, U.S. Rep. Martha McSally, R-AZ. "The NRA, through your political action committee, has made multiple contributions to candidates for federal office in my district over the last several election cycles," Sinema wrote in the letter, which was filed with the FEC Friday. "While I was not able to find any financial disclosures that disclose these contributions, you have the power to change that." Sinema's letter was a response to the NRA's attempt to recertify McSally as a member of the NRA during a meeting between the NRA and the FEC in February. McSally lost the Senate seat in 2018. The NRA filed a request for a second re-certification meeting on Feb. 12, which was initially
