terms of features, while featuring a simple interface. When you first access it, you can opt for listening to the tunes from a specific country, or language, that are available to be selected from the provided list.

Interface and design The application has a slick

design, and the elements are fairly well integrated within the menus. But one thing that could bother users is the way scrolling feels when you want to see what else is on the song list. It acts a bit lazy when you try to scroll down with the mouse wheel, and if you

According to statistics released by BuzzSumo, Reddit has more than 30 million daily visitors, and TheNextWeb also mentioned that about "19 percent of the United States's online traffic comes from Reddit". And it is not only the popularity that makes

---

Reddit so important, but, at the same time, the fact that people tend to trust information found on Reddit, more than on other places, such as Facebook and Twitter.
